Old (Unfinished) Business

Don reported that we have received Tier II reports for 552 locations. After checking the Kansas Teir II website we had to download locations from 9 companies that did not send our LEPC their reports.

New Business

Grant County received three Spill Reports in the last two months. One was saltwater and oil, another was fertilizer and diesel, and the third was fertilizer.

RAAM (Race Across America) had come through the county during the week of June 20-23 with no incidents.

Don gave an update on the state starting to set up in-classroom training. Don has offered to host an ICS-300 and ICS-400 class here in Ulysses. Most State sponsored training will start in late September. Don also talked about a Pipeline Security for Rural Communities classroom training that will be held in McPherson on July 22, 2021. Don had sent the flyer information out to the LEPC members.

Ron Younger advised that the hospital was still doing screening of all that come into the hospital. Toni Irvin and Richard Everett talked about working on end of Grant year paperwork as well as continuing testing for possible COVID-19 cases and giving vaccination.
